Sales and earnings outlook for 2012 confirmed

For the full year 2012, the company confirms its sales and earnings outlook.

The company expects **revenue** to grow to ~ \$14 billion in 2012¹. **Net income** attributable to shareholders of Fresenius Medical Care AG & Co. KGaA is expected to grow to ~ \$1.14 billion¹. This does neither include the investment gain in the amount of \$140 million in the first nine months of 2012 nor does it consider charges of up to \$70 million after tax mainly related to the intended renegotiation of the distribution, manufacturing and supply agreement for iron products in North America to reflect changes in the market and a donation to the American Society of Nephrology foundation to establish the Ben J. Lipps Research Fellowship Program.

For 2012, the company expects to spend ~ \$700 million on **capital expenditures** and ~ \$1.8 billion on **acquisitions**. The **debt/EBITDA ratio** is expected to be below 3.0 by the end of 2012.

Ben Lipps, chief executive officer of Fresenius Medical Care, commented: "In light of the negative implications from the difficult economic environment and from currency fluctuations, we achieved good operating results with an excellent operating cash flow in the third quarter of 2012. In summary, we are confirming our guidance for the full year at the lower end of the previously indicated range. We anticipate some special collection efforts related to services performed in prior years and other initiatives in the fourth quarter that will help us to achieve our guidance. The integration progress of our latest acquisitions continues and we are very pleased with our Quality Improvement programs and patient outcomes continuing to improve in nutritional status and reduced hospital days. The CEO transition to Rice Powell continues on track with the appointment of Ron Kuerbitz as the new CEO for North America effective January 2013."
